AddOns

Github
Maven
RabbitMQ

Additional Details

Leadership
Good Communication Skills
Team management

Strengths

- Software Engineer who is determined and hardworking towards archiving goals.
- Ready to learn new technologies and implement them to further improve my knowledge.
- Eager to work in a team of dedicated people and serve a key role in the enhancement and development of the project.
- Has intermediate level knowledge on Java, microservices architecture using spring frameworks and ReactJS.
- Worked on Spring boot Application, JWT authentication, spring API, Swagger UI and Eureka Server.

Achivement

OnDemand Car Wash System web application

Developed a web application which solves long term problem of time-consuming physical car washing system. Using this application anyone can book a wash for their cars at any time and at any location. Used MongoDB as database, microservice architecture for agility and ReactJS for responsive website.
